

Design & Certify

Safety is no accident

We offer design and certification of:

- Vehicle modifications
- Load racks
- Disability adaptations
- Vehicle display or inspection equipment
- Any other safety related structures

John is a professional engineer with 50 years experience.

John has designed and built many cars, trucks, and vehicle assembly facilities.

John has worked on design of roads, bridges, cranes, transmission towers, and buildings, and operation, maintenance and upgrade of hydro and gas turbine power stations.

John was a LVV Certifier for 13 years, assisting clients with design of all manner of vehicle modifications, but has ended that activity.

John is really good at stress analysis, materials, and manufacturing

John rides a 1992 Yamaha FJ1200ABS, and is also a keen road and off road cyclist.

Load racks

Mobility adaptations

Special trailers

Display and inspection

Tipper Conversion

Chassis Design and drafting for LVV

What I do:

- 1 Talk to you about what you want to achieve
- 2 Look at what you already have.
- 3 Figure out what else you need
- 4 Offer you a cost-effective solution.
